Downtown is convenient for our customers

“My husband and I were looking for a change,” says Leslie Campbell, owner of Brewing Oasis on Prescott Street. “I had a career in customer service, and he is looking to retire in a few years. When we had the opportunity to buy the business we jumped at the chance.”

“When we started it was a pretty steep learning curve. But now I love it. I wouldn’t change the decision for anything. I’m 100% sure this business is going to continue to grow.”

“Many of our customers already shop at other businesses downtown. But since we’ve been here, I never hesitate to ask people ‘have you tried this shop? You must check out that store.’”

“We rely a lot on word of mouth. So we work hard to make sure our customer have a good experience here. A lot of our new customers are former residents choosing to return to Kemptville. We’re seeing a lot of new faces because, let’s face it: this is the place to be.”
