Phone: (613) 258-9569
Fax: (613) 258-1441

1. The minor variance procedure will be initiated only once the completed application form and necessary supporting material, **outlined in items 2 to 5 below**, are received by the Planner.

Failure to provide the requested information on this application may result in your application not being accepted. For some applications, additional information may be required from a qualified professional. For example, proposals involving lands without municipal sanitary sewer and water services may require engineered site plans and test holes. The applicant will pay all costs associated with providing necessary additional information.

2. The application must be accompanied by a legal description of the property and a **plan, accurately drawn**, indicating the scale at which the plan was drawn (e.g. 1 cm - 300 metres) and whether metric or imperial measurements were used. The Plan shall show the following:
 - (a) the parcel of land that is the subject of the application, its boundaries and dimensions;
 - (b) the location, height, floor area, dimensions and use of all existing and proposed buildings and structures and the use of open lands; the distance of all buildings and structures from

Minor Variance or Permission Application Form and Procedure Guide

- the front, rear and side yards; the location and dimensions of off-street parking spaces, off-street loading facilities, planting strips, landscaped areas, rights-of-way and easements;
- (c) the distances between the site and municipal lot lines and/or relevant landmarks (e.g. bridges, railway crossings, etc.);
 - (d) the location of all natural and artificial features on the site (e.g. buildings, railways, highways, towers, watercourses, drainage ditches, banks, slopes, swamps, wooded areas, wells, and septic tanks);
 - (e) the location of any of these features listed above (e) on adjacent lands which may affect the application;
 - (f) the location of any septic tanks and tile beds, the dimensions of any tile beds, the setbacks of the septic system from existing and proposed lot lines, buildings or structure and any other significant natural features. Please also attach a copy of the 'Certificate of Approval' for the septic system, if applicable.
 - (g) the current uses of adjacent land (e.g. residential, agricultural, cottage, commercial, etc.) and the existing zoning categories (e.g. 'R1 – Residential', 'RU - Rural ', 'C1 - Commercial', etc.);
 - (h) the location, width, and names of all road allowances, rights-of-way, streets or highways within or abutting the site, indicating whether they are public travelled roads, private roads, seasonal, opened or unopened road allowances;
 - (i) location of parking and docking facilities to be used if access to site is by water only; and
 - (j) the location and nature of any restrictive covenants or easements affecting the site.
3. Once the Secretary-Treasurer receives the application and the application is deemed complete, notice of the proposed Minor Variance will be provided to all interested agencies, including surrounding municipalities, and to affected individuals. A report is prepared by the Municipal Planner and presented to the Committee of Adjustment at a formal Public Hearing. You will be expected to attend this **mandatory** Public Hearing to present your proposal. The Committee of Adjustment makes the decision to approve or refuse the requested Minor Variance.
 4. If no other planning approvals (e.g. Consents) are required, an application for minor variance will require approximately 2.5 months to process if no objections are received. If an objection is received, a Local Planning Appeal Tribunal Hearing may be required.
 5. If this application is signed by an applicant or agent on behalf of the Owner of the property, the Owner's authorization for this action must accompany this application. If the applicant is a Corporation acting without agent or solicitor, the application must be signed by an officer of the Corporation and the seal, if applicable, must be affixed.

Please note: the above information is essential for minor variance applications. Failure to provide this information inhibits a complete evaluation of the proposal and may result in a delay.
